

# AMBASSADORS

*Newsletter for June // Volume 2*

## JENNY

*Since summer started, my sleep schedule has been messed up due to excessive amounts of Netflix and solitaire. But every morning, my baby cousin comes over to visit me. She shows me the new things that she has learned the day before. She learned how to pucker her lips (which is adorable)!*

## ALICE

*After finishing my AP makeup exam, I went back to my hometown and visited my grandparents. And I was also learning how to drive this past week. Now I'm back in Beijing and ready to study. ☐*

## INDIPHILE

*Coming back home from school was exciting, but tiring. I had to take a 15 hour flight, I was super excited to be home. I had to spend my first week in quarantine. Since then, I've been spending time with my family and practicing my cooking skills.*

## CECILIA

*Coming back home to my family was very fun! We spent most of our time laughing with one another and just spending lots of time together.*

*My siblings and I would eat out and catch up. We played a lot of games together like Monopoly, Exploding Kittens, and Drawful.*

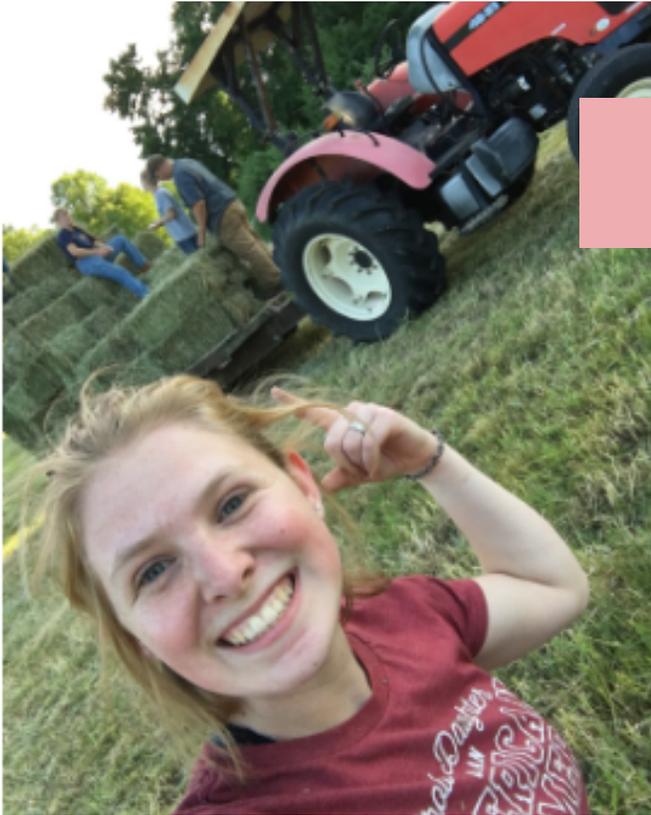

## BENA

*Early this month, I left school and traveled back home. It was unusual to travel during a pandemic. I had to stay in a hotel for quarantine. It was a long week. It made me realize how fortunate I was to come home with my family.*

## HALEY

*Since summer has started I've been working at a law firm and trying to find a second job, study for the SAT, as well as working on my college applications.*

## GRACE

*I've been working on the farm, swimming, and visiting with my family. My brothers and I just finished square baling around 300 bales-a lot of work-but one of my favorite parts of farming.*

*I'm getting to know my mentee, Rebecca, and she is super sweet! I'm also getting ready to go on vacation in the Florida Keys, I'm definitely excited to get a break from the farm!*

## CAMILA

*I am still babysitting my little cousin. We have so much fun together. We sometimes watch "Miraculous: Tales of Ladybug and Cat Noir". I'm looking forward to visiting my family ASAP!*

## SARAH

*When I'm not working, I go on lots of walks occasional hikes, spend time with my brothers and try to catch every sunset possible. I've also been to the Drive-in theater near my house several times in the last few weeks.*

## ANGELA

*To start off my summer, I started working again with horses and dogs! They're so much fun to be around. There are also new puppies, which are super cute! So tiny!*

*My brother came home a week after me, and my siblings have been spending a lot of time together! :)*

## AITHY

*Since the end of the school year, I have been working a lot. I work at a fast food restaurant named Freddy's. It has been fun working with my coworkers.*

*I also have been hanging out with my friends from Minnesota, and video chatting friends from the Academy. My summer has been going very well so far!*

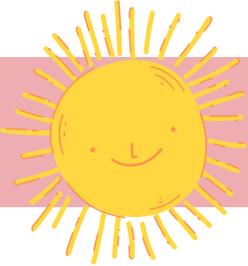

## LAURA

*I've been working a lot at the store, but when I'm not there, I go on a lot of hikes with my family. We also go kayaking and fishing pretty often. Mainly, we just try to tire out the puppy!*

*We can't go too many places because of Covid, so we do fun things at home like water gun fights with our neighbors, and playing cornhole outside.*

## SUMMERTIME!

*All of us in the Ambassadors Club hope you all have an amazing summer. Get outside and enjoy the sun, spend time with your family, enjoy nature, and go swimming when you can. God bless!*
